CCIII - Introduction to Computer

Midterm Examination
1st Semester
October 16- 18,2024

Name: _____   **Year /Section:** _____**Score:** _____

General Instructions:
1. Write all your answers in the space provided.
2. Write neatly and legibly.
3. Erasure or change of answer in any way is strictly not allowed

Test 1: Multiple Choice: (60 points)
Direction: Read each question carefully, and write the letter of your answer in the space provided

_____1. It allow users to interact with the software using text, graphics and visual
       images such as icons.

       A. GUI   C. Internet
       B. Web Pages   D. Computer

_____2.What is a small symbol on the screen whose location and shape changes as a user moves a
       pointing device?

       A. Keyboard   C. Monitor
       B. Pointer   D. Speaker

_____3. It interprets and carries out the basic instructions that operate a computer.

       A. Keyboard   C. Processor
       B. Memory   D. Speaker

_____4. What is a process of setting up software to work with the computer, printer,
       and other.

       A. Downloading   C. Installing
       B. Terminal   D. Network

_____5. What is the largest computer network in the world, connecting millions of computers ?

       A. Internet   C. Software
       B. Network   D. Computer

_____6. What   is a stationery pointing device with a ball on its top or side?

       A. Keyboard   C. Stylus pen
       B. Speaker   D. Trackball

_____7. What is a copyrighted software that is distributed at no cost for a trial period.

       A. Freeware   C. Shareware
       B. Memory   D. all of the above

_____8. A type of provider that only features such as instant messaging or their own customized
version of a Web browser

       A. Offline Service Provider   C. Utility Program
       B. Online Service Provider   D. Search Engine

_____9. What type of notebook computer that is smaller, lighter, and often not as powerful as a
traditional notebook computer?

       A. Net book   C. Utility Program
       B. tablet   D. Personal Computer

_____10. What is a collection of unprocessed items, which can include text, numbers, images, audio, and video?

   A. Information   C. Data
   B. tablet   D. All of the above

_____11. It allows a user to speak into the computer

   A. Microphone   C. Utility
   B. scanner   D. Webcam Program

_____12 What is electronic components that store instructions waiting to be executed and data needed by those instructions?

   A. Memory   C. Processor
   B. tablet   D. Personal Computer

_____13. An advantage in using a computer.

   A. Active and perfect   C. Speed and Reliability
   B.   Speed and Accountability D. All of the above

_____14. It is the most expensive and highest quality, it is used for professional studio work

   A. Memory   C. Processor
   B. Field Camera   D. Studio Camera

_____15. What is the smallest element in an electronic image?

   A. Input   C. Pixel
   B. Resolution   D. All of the above

_____16. What is an identification code that consist two – dimensional pattern of dots, squares, and other images?

   A. Bar Code   C. ASCII
   B. RFID   D. Studio Camera

_____17. A type of a website that contains newsworthy material including stories and articles relating to current evens, life money, sports, and weather.

   A. Bar Code   C. ASCII
   B. News   D. Studio Camera

_____18. An ergonomic keyboard ____.
   A. Has a design that reduces wrist and hand injuries.
   B. Transmit data using wireless technology
   C.Us used to enter data into biometric device
   D. All of the above

_____19. It is used by most retail stores to record purchases, process credits or debit cards and update inventory.
   A. AT   C Biometric Input
   B. POS Terminal   D. KIOSk

_____20.The speed of an ink – jet printer is measured by the number of ____ it can print.
   A. Lines per page (llp) C. character per second (cps)
   B. Dots per inch (dpi)   D. pages per minute (ppm)

_____21. What i is a locations on an Internet, which permits users to chat with each other.
   A. Chat Room   C. Messenger
   B VOIP   D. FTP

_____22.What is a business transaction that occurs over an electronic network such as the Internet?
   A. E -business   C. E-commerce
   B. VOIP   D. FTP

_____23. A type of a printer that are used to produces high – quality drawings such as blueprints, maps, and circuit diagrams.
   A. Mobile printers   C. thermal printers
   B. Plotter   D. laser printer

_____24. It is a high – speed impact printer that prints an entire line at a time.
         A. Dot – matrix Printer   C. Large – format printer
         B.Thermal Printer   D. Line Printer

_____25. A device that takes the text and images displaying on a computer screen and projects them on a larger screen
         A. Data Projector   C. Voice output
         B. Ear buds   D. All of the above

_____26. What is a desktop monitor that contains a cathode – ray tube?
         A. CRT MONITOR   C. LCD Monitor
         B. Plasma Monitor   D. All of the above

_____27. It is any hardware component that conveys information to one or more people.
         A. Input   C. Input Device
         Output   D. Output Device

_____28. Menu contains a list of commands from which you can make selections
         A. Menu   C. Icon
         B. Pointer   D. Button

_____29. What is the process of transferring documents, graphics and other objects from your computer or server on the Internet?
         A. Downloading   C. Uploading
         B. Forwarding   D. all of the above

_____30. Flash Memory It is a type of nonvolatile memory that can be erased electronically and rewritten.
         A. Read Only Memory   C. CMOS
         B. Flash Memory   D. RAM

Test II. True or False (10   points)

Direction: Write True if the statement is   True   and if FALSE write False

_____31. A computer can process data in a billions or trillions of operation in a minute.

_____32. Shareware is a copyrighted software provided at no cost to a user by an individual or a
      company, that retains all rights to the software

_____33. A USB port can connect up to 127 different peripherals together with a single connector

_____34. Firewire Port uses radio waves to transmit data between two devices and it should be 33
      feet with each other.

_____35. Dot Matrix Printer is a high – speed impact printer that prints an entire line at a time.

_____36. Virus is a malicious software

_____37. Headphone rest inside the ear canal

_____38. Netiquette is the code of unacceptable behaviors while on the Internet

_____39. E-mail address is a combination of user name and a domain name

_____40. Video is   consists of images displayed in motion

TEST III: Matching Type (10 points)
Direction: Match   Column A   from Column B. Write the letter of your answer before the number

Column A	Column B
_____41. A digital video camera that allow users to create movies or take picture	A. CD
_____42. It can hold from 650 million to 1 billion characters.	B. Network
_____43. A printer that produces photo – lab – quality pictures	C. IrDA Port
_____44. A collection of data organized in a manner that allows access, retrieval, and use of a data	D. Connector
_____45. A group of two or more computer systems linked together	E. Photo Printer
_____46. A port that uses infrared light waves to transmit signals to a computer.	F. Stylus
_____47. A device that functions as both headphones and a microphone	G. Domain Name
_____48. A small metal or plastic device that looks like a tiny ink pen but uses pressure instead of ink	H. Headset
_____49. It joins a cable to a port	I. Database
_____50. The text version of an IP address	J. Webcam

Test IV: Puzzle (20 points)
 Direction: Use the clues/descriptions below to fill in the crossword **puzzle** with the correct words

51. A device that functions as both headphones and a microphone
52. A copyrighted software that is distributed at no cost for a trial period.
53. One   of the most important utility programs that protects a computer against malicious software
54. Depicts data in a graphical form.
55. An application software that allows users to access and view web pages
56. It can accept data, process the data according to specified rules, produce results
57. A collection of related Web pages
58.   A short for Weblog
59.   It is a light – sensing input device that reads printed text and graphics and then translates the results into a form the computer can process.
60. An input pointing device

(crossword puzzle grid with numbered cells: 56/54, 51, 52, 53/60, 55, 57, 58, 59)
